OFFICE OF LEGISLATIVE COUNSEL

Wednesday - 23 August 1978

25X1

1. [REDACTED] TRAVEL Accompanied Loch Johnson and Dick Giza, both of the House Permanent Select Committee on Intelligence staff, to [REDACTED] for briefings on both installations.

25X1

Discussed with Dick Giza the request from Tom Latimer, Committee Staff Director, for an estimate on when the DCI would inform the Committee about who the DCI had designated as the central reference point for Intelligence Warning. I told Mr. Giza that a decision would be forthcoming, but that I could not presently provide him with an estimate. We both agreed that the Agency would have to be prepared to discuss this issue during the hearings on Warning that the Committee would be holding in September. I passed this on the [REDACTED] CSS/NFAC, after returning to Headquarters.
